Design

The design of Armani Residences Dubai is a reflection of Giorgio Armani's personal approach to sophistication and style. Armani's smooth, understated design combines space and bespoke furnishings. Each suite focuses on the compatibility of materials, form and lighting in a superb, softly luminous setting.

The various zones in the apartments are created using panels and rounded partitions to achieve an alternative definition of space and create a flow of perception that progressively and gradually reveals each room.

Furniture and Finishes

Within Armani Residences Dubai, all furnishings are made-to-measure with customized finishes. Bathrooms and kitchens feature highly practical and stylish materials. The furnishing and accessories are all from Armani/Casa, and fit into the overall look, expressing a feeling and aura of polished opulence. For example, the clever combination of subtle ceiling spots and lamps from the collection enhances contours, sumptuous surfaces and fabric textures.

Facilities

In addition to having full access to the services offered by Armani Hotel Dubai, such as Lifestyle services, housekeeping and room service available 24/7; residents also have complete access to the hotel's facilities. As a result, residents will have the opportunity to dine at the eight restaurants the hotel offers, enjoy the spa, swimming pool and fitness centre or if they wish to host a celebratory or corporate event they may utilize venue space such as the Armani/Ballroom or Armani/Pavilion – an impressive outdoor area offering sweeping views of The Dubai Fountain and beyond.
